

St Bartholomew's CE Primary School

13.07.2020

Dear Parents and Carers,

We are close to the end of this academic year and it has been a very unusual few months. We have tried to support home learning as well as we can and have also tried to get as many children back into school as possible, whilst still following ever changing Public Health England and government guidelines. I am aware that it is possible that whole classes may have to isolate in the autumn or even the whole school if there is a local lockdown. Teachers will be making plans for this over the summer break.

With this in mind we would like your help. We would like to know which things we have put in place since the end of March that have been helpful to you at home and if you have any suggestions of ways in which we could assist you further. Please complete the table below and send comments to the enquiries email marked for the attention of Lisa Beresford.

Please list 3 things you have found helpful or enjoyable and 3 ideas you think we could try if we do need to deliver remote learning again in the autumn.

Helpful/enjoyable	Ideas to try

Yours faithfully

Karen Foster
Interim Head Teacher
