<https://new.thinkuknow.co.uk/professionals>

Play Like Share

A video series created for 8-10 year olds which can enable children to spot warning signs of manipulative and abusive behaviour online

Lesson plan and resources can be accessed by registering for free at Thinkuknow

<https://new.thinkuknow.co.uk/professionals>

11-14 years DIGITAL CITIZENSHIP Young peoples' rights on social media

In this increasingly technological world, it's important that young people have the resilience, power and information they need to thrive online. In a bid to support you as you explore the world of digital citizenship with your students, we have produced this lesson pack, including a scheme of work, written by teacher and citizenship specialist, Emily Coxtan @ECBteacher2015, as well as jargon-free terms and conditions for five of the major social media sites.

Learning outcomes

- Session 1: What are terms and conditions and why do we read them carefully?
- Session 2: Describe our rights as young people using social media and why we need to be aware of them.
- Session 3: Describe the rights of social media companies using terms and conditions and why we need to be aware of them.
- Session 4: What can I do if someone violates my rights?
- Session 5: Why do we need to develop resilience online and how can terms and conditions help to empower us?
- Session 6: How can we raise awareness of our online rights and responsibilities amongst younger students?

Children's Commissioner T & C's

A series of lessons and resources focused on the rights of children and young people online. The lessons use simplified versions of the terms and conditions that many children will have accepted but not read.

<https://www.tes.com/teaching-resources/digital-citizenship>

Information Commissioner's Office

A series of 3 lessons created by the Information Commissioner's Office (ICO). The lessons are designed to enable appropriate discussions with children about their personal information online.
